

The Niagara Escarpment is a global treasure right under our feet...literally! Learning about the historical, cultural, geological, and environmental importance of these as yet untapped riches inspired the founding of GEO-DC in early 2012. Achieving 501c3 status in late 2014, GEO-DC has carefully laid down a solid groundwork of policies, principles, and organizational ethics.

In order to reach the next level of organizational development and put our policies, principles, and organizational ethics into concrete (yes, literally, concrete) forms, including, but not limited to the construction of an internationally recognized Discovery Center in Norther Door County, the organization is taking the next step to establish a groundwork of supporters who agree with our mission:

Cultivating knowledge and stewardship of the Niagara Escarpment corridor and its geological, ecological and cultural wonders in people of all ages and from all walks of life.

An annual membership of \$50 will go a long way to further our goals and mission as well as provide you with the benefits of being a member, including for example, discounts and priority for sponsored lectures and facilitated hikes.

Please consider filling out the annual membership form below. If annual membership is not something in which you are interested, please consider supporting our mission either with a monetary donation or by offering your time and talent.

Please print and mail in with your membership fee. You may also send a copy of this form by pressing the submit button and pay on our web site from the home page.
